**THE  
VALVE  
VALUE**

**WHY  
DVPL VALVES?**

**PROUDLY  
MANUFACTURED IN INDIA**

"At Durga Valves, we specialize in manufacturing high-performance valves designed for Water, Power, Process and Irrigation pipeline projects. We carefully select precision foundries and top-grade raw materials that meet stringent industry specifications, ensuring superior strength and corrosion resistance. Each valve undergoes rigorous quality checks as per our Quality Assurance Plan (QAP) to guarantee reliable operation in diverse environmental conditions. While pricing is considered, our primary focus remains on delivering advanced designs and durable products that optimize water management, enhance system efficiency, and ensure long-term sustainability for critical water infrastructure."

**WHY  
DVPL VALVES?**

With over 50 years of expertise in valve manufacturing, Durga Valves Private Limited stands as a trusted name in quality, performance, and customer service. Our commitment goes beyond just supplying valves—we ensure value for money to contractors and departments while upholding the highest standards of integrity and professionalism.

**Reliable | Efficient | Engineered for Excellence.**

"Price is what you pay.  
Value is what you get." -  
Warren Buffett

**WHY DVPL VALVES?**

## Why Choose Durga Valves?

- ✓ Superior Casting & Trim Quality - Our valves feature enhanced weight advantages and superior internal trims compared to competitors.
- ✓ Expert Technical Guidance - We assist in selecting the right valves, ensuring long-term efficiency and reliability.
- ✓ Large In-House Manufacturing Capacity - With no dependence on Chinese imports, we guarantee consistent quality and supply.
- ✓ Precision Engineering & Durability - Our valves maintain healthy weight tolerance and adhere to proper grades of castings and metal components for superior longevity.

- ✓ **Advanced Gearbox Design** – Our enclosed and lubricated gearbox for Sluice Valves, BF Valves, Gates enhances operational efficiency and lifespan.
- ✓ **Extended Valve Life** – High-quality materials and innovative design ensure long-lasting performance.
- ✓ **Easy Maintenance & Support** – Spare parts are readily available, and our technicians provide prompt assistance.
- ✓ **Best-in-Class Specialty Valves** – Our air valves, vacuum breaker valves, and surge suppression valves outperform competitors with dependable performance and efficient flow parameters.

✓ Integrity & Commitment – Durga Valves does not believe in lowering prices at the cost of quality. We uphold the dignity of our profession by never intentionally manufacturing or supplying inferior-grade valves—even if we are not selected for supply. Our focus remains on quality, honesty, and delivering the best product possible.

At Durga Valves, we don't just manufacture valves—we engineer trust, reliability, and long-term value
